

The image shows a square decorative panel with a light gray background. A grid of thin, dark gray lines forms a pattern of diamonds across the entire surface. At each intersection of these lines, there is a small, square, iridescent tile. These tiles reflect light in various colors, including shades of pink, red, orange, yellow, green, and blue, creating a shimmering effect. The panel is framed by a thin, dark gray border with rounded corners. In the bottom-left corner, there is an orange-to-red gradient label with white text.

A square tile with a complex geometric pattern. The background is a light beige color with a subtle, repeating pattern of interlocking circles. Overlaid on this is a grid of thin, dark lines forming a diamond shape. At the intersections of these lines are small, colorful diamonds in shades of purple, blue, green, yellow, and orange. The tile is framed by a wide border. The inner part of the border features large, stylized scrollwork or acanthus leaf motifs in the corners. The outer part of the border is a thin, dark line. The entire tile is set against a dark, textured background.
